

Mid-West Steel Building

placed, CMP has the unique ability to customize each product to suit the needs of each customer. CMP employees have experience with horses and livestock from ranching to rodeo. Each order is built for horse and cattle people by horse and cattle people. A line of portable panels and gates is guaranteed against livestock abuse. Products are among the safest on the market. With dealers across Montana and neighboring states, CMP guarantees quality workmanship, durability and longevity.

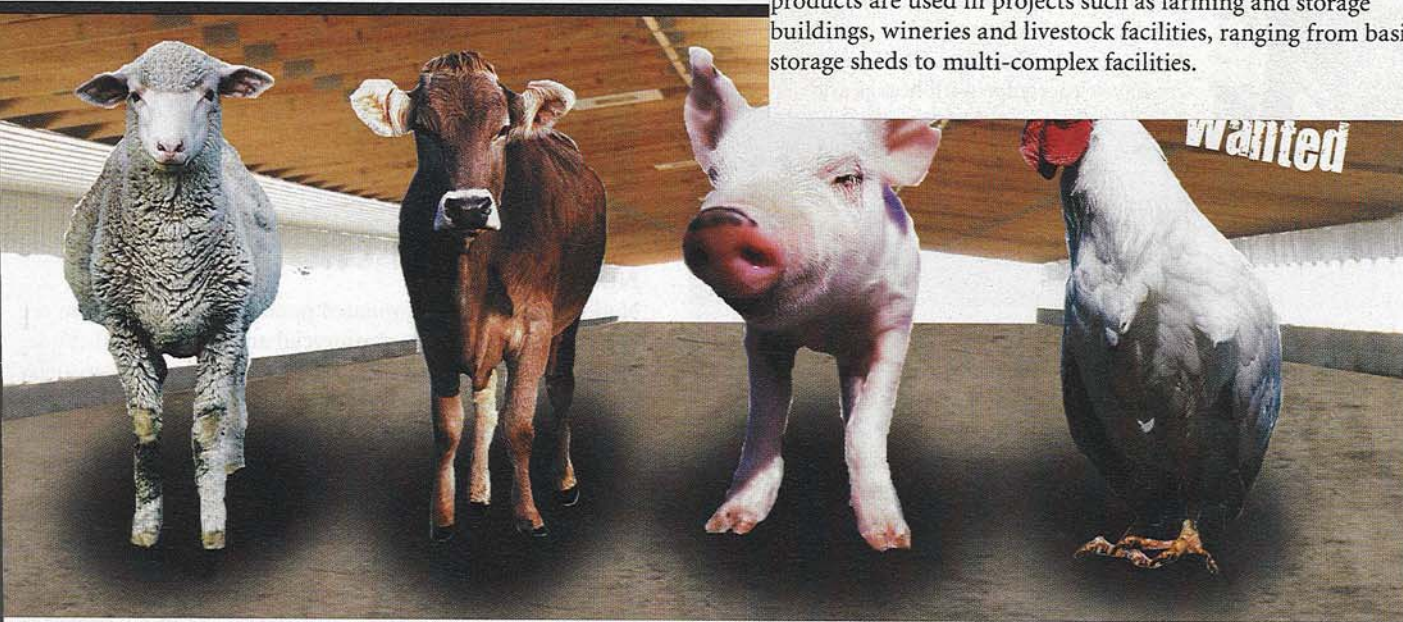

Fi Foil • Circle 105

Reduce thermal radiation, add comfort and improve the energy efficiency of horse barns and riding arenas with the company's insulation products.

Mid-West Steel Building Company • Circle 106

Since 1989, Mid-West has been providing high quality metal building systems for the agricultural market. Mid-West

products are used in projects such as farming and storage buildings, wineries and livestock facilities, ranging from basic storage sheds to multi-complex facilities.
